

WHY I SEND MY CHILDREN TO SACRED HEART CATHOLIC SCHOOL

When our only child was four years old, we moved from Phoenix to Prescott so that we could place her in a school that was not too big, and that has a real feeling of “community” for families. We love Sacred Heart School because:

- It is important to us that our daughter be taught in a nurturing educational environment that fosters her growth as a “whole” child (intellectually, emotionally, physically and spiritually)
- We want our child to attend a school that will reinforce the Christian values that we follow at home –NOT a school that will teach her things that are contrary to what we teach as parents.
- Our child gets to interact with and be exposed to emotionally and spiritually healthy children from Christian homes.
- As much as possible, we want to protect our child from the unhealthy influences of the secular world.
- Sacred Heart follows the highest standards for academic, ethical, moral, and personal conduct.
- The teachers at Sacred Heart are VERY dedicated. They work at the school because they believe in what the school represents.
- The principal is caring, professional, accessible, and forward thinking.
- Sacred Heart School is over 50 years old. It has the full support of Sacred Heart Parish. Pastor Daryl says that the school “is the life blood” of the parish”.
- Each morning, the school days begin by having all the children gather together in the gym for morning prayers.
- Parental participation in school functions is required.
